

August 18, 2011

Dear Families,

Family Voices is partnering with the Centers for Disease Control and Prevention (CDC) to collect information from families on their experiences with the flu and the 2009 H1N1 pandemic.

To help with this project we ask that you **complete a brief survey**. Your answers to the survey will help CDC better inform and educate families of children with special healthcare needs about the flu. The survey will take about 15 minutes to complete.

To access the survey in English, please go to: <http://www.orau.gov/caregiver-flu-survey/>

To access the survey in Spanish, please go to: <http://www.orau.gov/caregiver-flu-survey/Spanish-Version/>

Your opinion is very important! Your answers will be very useful to CDC in their work to improve the health and well-being of all children with special healthcare needs.

If you have any questions about this survey, you may contact:
